

One Great Hour of Sharing is an ecumenical offering.

I would like to share with you some brief information regarding The One Great Hour of Sharing. This special offering contributes to the church missions both here at home and throughout the world. The missions are focused on hunger, self-development of peoples, and disaster relief. These projects involve working with communities to provide food, end poverty, and provide aid to refugees. This project also provides aid to victims of natural disasters by providing food, water and supplies. Through these efforts the WPC provides aid and support to communities both here at home and around the world.
